

Introduction

What Is Academy Laravel Mobile App?

Academy Laravel is an online course-based learning management system designed for creating and selling courses, as well as managing web portals. This web application, built with the latest features of the Laravel (PHP Framework) version, offers a seamless experience for site administrators and course teachers to design, sell, and manage courses. Students can effortlessly expand their knowledge with a wide variety of customized courses.

To enhance accessibility for students, Academy Laravel now includes a mobile app. This mobile app allows students to access their courses on the go, making it easier to engage with documents, photos, videos, and text lessons. The app provides a flexible and enhanced learning environment, ensuring that students can continue their education anytime, anywhere.

What Academy Laravel Mobile App Does?

Academy LMS Laravel is an online course-based educational platform designed for students. With Academy LMS Laravel, students can:

- Access the Courses and browse them according to categories
- Enroll in and complete courses and quizzes
- Join live classes
- Browse Course details and share them with others
- View course progress and completion status
- Add courses to cart and buy them
- Adjust personal settings for a tailored learning experience

Who is Academy Laravel Mobile App For?

Academy Laravel Mobile App is the best solution for any course-based online educational platform. It fits perfectly with any educational institution like schools,

colleges, universities, training institutes, yoga, cooking, painting, and more. Academy Laravel is beneficial for:

- **Students:** The mobile app, designed exclusively for students, allows for better accessibility, enabling them to enrich their knowledge and skills on the go.
- **Instructors:** Instructors who want to create and sell courses in their areas of expertise need to use the web app to access and manage their functionalities.
- **Admins:** Admins who operate the application, create and earn revenue, and manage the user panel must use the web app for full functionality.

Basic Terms

What is a course

With the course-based structure of Academy LMS Laravel, educators and students can share knowledge and advance their understanding.

Lessons, tests, and attachments can be created under the course by the instructor or course creator. The person who created the course can later edit, change, or delete it. However, in order to register for a course, students must first purchase it. The course serves as a means of bringing users together on this learning platform so they can learn and collaborate. You can create a course with many instructors in Academy LMS Laravel.

Who is an admin

An admin is a user who has the highest number of privileges, permissions, and responsibilities in Academy LMS Laravel. The admin has to manage the entire system through the web app to operate the application.

Who is an instructor

The instructor is an Academy LMS Laravel user who creates and sells courses in their areas of expertise. Instructors must use the web app to access all the features.

Who is a student

In the Academy LMS Laravel mobile app, students are users who want to learn or upgrade their skills in their favorite subjects. You can allow your students to enjoy their learning experience in a better way on-the-go. The mobile app provides students with better accessibility for all functionalities, including:

- Paying for or subscribing to courses to enroll in them.
- Beginning or resuming enrolled courses from their previous progress.
- Creating wish lists and browsing available courses.
- Applying to become instructors in Academy LMS Laravel.

With the mobile app, students can enjoy a smooth and accessible learning experience anytime, anywhere.

Getting Started

Home Page

The users can view all the courses, top courses, and the course categories inside the homepage.

The screenshot shows the homepage of an e-learning platform. At the top, there's a navigation bar with the Academy logo, a search icon, and a shopping cart icon with a red notification badge. Below the navigation, there are two sections: "Top Course" and "All courses >". The "Top Course" section features a thumbnail for "Yoga for Beginners: A Comprehensive Guide" (5.0 / 30 reviews) and another thumbnail for "Impedit molestiae". The "All courses >" section has a large "View All" button. Below these are "Course Categories" with thumbnails for "Web Development" (4 sub-categories), "Graphic Design" (5 sub-categories), "User Experience" (6 sub-categories), "Interior Design" (5 sub-categories), and "3D and Animation" (6 sub-categories). At the bottom of the page are links for "Home", "My Courses", "My Cart", and "Account".

My Courses

After logging in, users can view all the courses they are enrolled in inside the **My Courses** page.

The screenshot shows the "My Courses" page. At the top, there's a navigation bar with the Academy logo, a search icon, and a shopping cart icon with a red notification badge. Below the navigation, there's a heading "My Courses". The main content area displays four course cards: 1. "The Data Science Course: Complete Data Science" (5.0 / 30 reviews, 35% completed, 7/20 lessons). 2. "Melody Guitar Beginner Course" (5.0 / 30 reviews, 0% completed, 0/21 lessons). 3. "Complete Blender Creator: Learn ..." (5.0 / 30 reviews, 0% completed, 0/20 lessons). 4. "WordPress Theme Development with..." (5.0 / 30 reviews, 0% completed, 0/21 lessons). At the bottom of the page are links for "Home", "My Courses", "My Cart", and "Account".

My Cart

After logging in, users can view the courses they have added to the cart for purchasing by clicking on the **Cart** page.

Account

Users can easily manage their account, edit their profile, view wishlists and downloaded courses all in one place inside the **Account** page.

How Academy Laravel Mobile App Works

User Roles

Academy LMS Laravel operates with three primary user roles: administrators, instructors, and students. With the addition of public instructors, the number of instructors can increase to three.

The Academy Laravel mobile app strives to provide exclusive access to students for a better and enjoyable learning experience.

Installation

Begin by downloading the Academy Laravel mobile application file from CodeCanyon. Follow the provided instructions to install the application on your cPanel.

Configuration

Upon installation, configure Academy Laravel mobile app by specifying basic settings and relevant data.

Learning From The Course

Upon enrollment, students can access various benefits offered by Academy Laravel mobile app. These include course lists, progress tracking, wishlistng courses, and buying courses.

Additionally, students can securely log in, manage their personal accounts, and browse courses efficiently. Academy Laravel mobile app prioritizes delivering a consistent and user-friendly experience.

Content Safety

Academy Laravel mobile app is a comprehensive learning management system designed to distribute, and manage educational content.

When using Academy LMS Laravel, users must adhere to strict guidelines regarding the handling of user information. Users are strictly prohibited from publishing or utilizing user information for personal gain. Any unethical use of user data is strictly prohibited.

Academy Laravel mobile app prohibits the use of content that may harm or discriminate against any religion. Additionally, users are prohibited from engaging in political discussions, personal promotion, or using abusive language within the application.

- Framework: Laravel
- Minimum Php version : > 8.2
- Database: Mysql
- MySQL Version : > 5.7.0
- Required server: Apache
- cURL status: Required
- Mod rewrite module status: Required
- Minimum Required Physical Memory: 3GB

How To Install Academy LMS Laravel

Student Panel

Browsing the Courses

Students can browse the courses, add courses to their wishlist and carts from the **Home** Page.

Explore all courses

Students can explore all courses in the app by following the steps below:

1. Login to Academy Laravel mobile app using your credentials.
2. Go to the **Home** page.

The screenshot shows the 'Top Course' section of the Academy app. It features two course cards. The first card is for 'Yoga for Beginners: A Comprehensive' course, which has a rating of 5.0 based on 30 reviews. The second card is for 'Impedit molestiae', which also has a rating of 5.0 based on 30 reviews. Both cards include a small image thumbnail.

The screenshot shows the 'Course Categories' section of the Academy app. It lists several categories with their respective sub-categories and an arrow icon to view more details. The categories are: Web Development (4 sub-categories), Graphic Design (5 sub-categories), User Experience (6 sub-categories), Interior Design (5 sub-categories), and 3D and Animation (6 sub-categories). Below the categories, there are navigation links for 'Home', 'My Courses', 'My Cart', and 'Account'.

3. You can view the top courses, all the course categories.
4. If you want to view according to a category, click on the arrow button beside the selected category.

The screenshot shows the 'Top Course' section of the Academy app, similar to the first one. However, the arrow icon next to the 'Web Development' category is highlighted with a red box, indicating it should be clicked to view more details.

5. If you want to view all courses, click on **All Courses**. You can view all courses listed as shown below.
